

**REMARKS**

Claims 1-9, 13, 18, 30-40, and 42-45 are pending in the application.

This pending application is a reissue continuation of 09/776,394, which is a reissue application of U.S. Patent No. 5,865,846. When this continuation reissue application was filed, Applicants filed its claims as original application claims, and did not include the patented claims of the patent to be reissued (namely, U.S. Patent No. 5,865,846). Accordingly, as of July 10, 2006 (the date of Applicant's most recent amendment), claims 1-36 were pending, but these did not include the claims of, or the numbering of, the original patented claims from U.S. Patent No. 5,865,846.

In a telephone discussion with Examiner A. Stewart on July 17, 2006, we were instructed to correct the formatting for this reissue application by submitting this Supplemental Amendment. This paper adds issued, patented claims 1-9 from parent Patent No. 5,865,846 as original claims 1-9, and renames the continuation reissue application claims as 10-45. Accordingly, the original continuation reissue claims 1-36 have been renamed as claims 10-45.

Accordingly, the status of the claims is:

- a. Claims 1-9, 13, 18, 30-40, and 42-45 are pending (of which claims 1-9 are from issued Patent No. 5,865,846 and claims 13, 18, 30-40, and 42-45 are renumbered from 4, 9, 21-31, and 33-36);
- b. Claims 10-12, 14-17, 19-29, and 41 are cancelled (formerly 1-3, 5-8, 10-20, and 32); and
- c. Claims 13, 18, and 45 are allowed (formerly claims 4, 9, and 36).

The claims in this Supplemental Amendment include the amendments submitted in the Amendment filed July 10, 2006.
